2 risk of harm from use of the subject helicopter and component parts, including the tail rotor
3 system and fuel tank, in that said systems contained hazards of such magnitude so as to
4 create massive and instantaneous in-flight failure.

5 195. Defendant failed to properly and timely report known and suspected defects,
6 malfunctions, and failures including the precise nature and mechanism of the defect,
7 malfunction and failure in the aircraft which is the subject of this lawsuit and thereby
8 breached its duty to repair, replace, recall, inform and warn operators, users, passengers and
9 others of the known and anticipated malfunctions, problems, safety hazards and defects
10 associated with the use and continued use of the helicopter and component parts.

11 196. Defendant failed to report, warn, instruct, recall, replace, repair, inspect, test,
12 investigate and monitor the safety and related hazards of the subject helicopter and
13 component parts, including the tail rotor system and fuel tank wherein it had an initial and
14 continuing duty and obligation to do so.

15 197. Defendant failed to issue or issued improper and tardy service bulletins in regard to
16 the helicopter.

17 198. Defendant Airbus, S.A.S., should have issued or requested issuance of proper

19 199. As a direct result of the failure of the Defendant to adequately warn of the risk of
20 harm from the heretofore enumerated defects or hazards, Jonathan Neal Udall died.

21 200. By virtue of Jonathan Neal Udall's untimely death, Plaintiffs are lawfully entitled to
22 such damages as are fair and just for the death and loss thus occasioned, including but not
23

1 limited to the pecuniary losses suffered by reason of the death, grief, sorrow, funeral
2 expenses, and the reasonable value of the services, consortium, companionship, comfort,
3 society, instruction, guidance, counsel, training, and support of which Plaintiffs have been
4 deprived by reason of such death, further including, loss of probable support, past and future
5 lost income, household services, and other value of benefits which would have been provided
6 by the deceased.

7
8 201. Plaintiffs further claim such damages as the decedent suffered between the time of
9 injury and the time of death and for the recovery of which the decedent might have
10 maintained an action had death not ensued including, but not limited to, mental anguish,
11 physical disability, conscious pain and suffering, pre-impact terror, disfigurement, and
12 further considering the aggravating circumstances attendant upon the fatal injury.

18 tail rotor system which is uncontrollable in the event of a failure, especially at low speeds,
19 hover and/or liftoff;

20
21 b. Defendant knew that the failure of the tail rotor system renders the
22 helicopter unsafe and uncontrollable;

23 c. Defendant supplied a pilot operating handbook or flight manual that did not safely and
24 properly address failure of the tail rotor system or proper and safe emergency maneuvers;
25

1 d. Defendant failed to provide the pilot of the subject helicopter with proper in-flight
2 warning that the tail rotor system was inoperable or failing;

3 e. Defendant supplied the subject helicopter without a proper warning system to advise the
4 pilot of an in-flight tail rotor system failure;

5 f. Defendant selected and supplied an unsafe and unreasonably dangerous fuel tank
6 configuration which caused the helicopter to explode and/or burn upon impact; and

7 g. The helicopter was not crashworthy in that the fuel tank as designed and manufactured
8 was incapable of withstanding impact of a minimal to moderate nature.
9

10 211. That as a direct and proximate result of the aforementioned defective conditions, the
11 subject helicopter crashed and burned thereby causing the death of Jonathan Neal Udall.
12

SIXTEENTH CAUSE OF ACTION

**(STRICT LIABILITY - - FAILURE TO WARN BY DEFENDANT
AIRBUS HELICOPTERS, INC.)**

213. Plaintiffs hereby incorporate by reference, as though fully set out herein, each and every allegation of the preceding paragraphs.

215. That at all times pertinent hereto, Defendant Airbus, Inc., failed to provide an adequate warning as to the danger of use of said helicopter, including the tail rotor system and fuel tank, which was then unreasonably dangerous.

216. Defendant failed to adequately warn foreseeable users of the risk of harm from the defective design of the tail rotor system in that a failure of the system would render the helicopter uncontrollable.

217. Defendant failed to use ordinary care to adequately warn foreseeable users of the risk of harm from the defective design of the fuel tank configuration in that said system was uncrashworthy allowing the helicopter to explode and/or burn upon any impact.

218. The helicopter was used in a manner reasonably anticipated.

219. Jonathan Neal Udall died as a direct result of the sale, use, operation, and service of the Defendant's helicopter without an adequate warning or direction as to its monitoring, repair, replacement, servicing, hazards, and conditions.

1 220. By virtue of Jonathan Neal Udall's untimely death, Plaintiffs are lawfully entitled to
2 such damages as are fair and just for the death and loss thus occasioned, including but not
3 limited to the pecuniary losses suffered by reason of the death, grief, sorrow, funeral

177. Defendant Airbus Helicopters, Inc. purposefully entered the State of Nevada's market and/or established contacts in the State of Nevada and affirmatively directs contact in the State of Nevada and the claims herein arise from that purposeful contact and/or conduct.

178. Such purposeful availment resulting in and generating millions of dollars to the Airbus Helicopters Defendants for sale and support of Airbus Helicopters and parts to Nevada customers all with the goal of personally availing themselves of the lawful privilege of doing business within the State of Nevada which has the countervailing consequences of being held accountable for conduct and being subject to jurisdiction within the State of Nevada.

1 lengths to develop a Nevada market for their scenic helicopter tours and it was the crash of one such
2 helicopter that gave rise to Plaintiffs' damages and injuries in that Defendant Papillon would never
3 have been in a position to operate the subject helicopter on the fateful day "but for" the Airbus
4 Helicopters Defendants' extensive, continuous and systematic commercial and business activities
5 within the State of Nevada.

6
7 181. For all of the named Defendants, including the Airbus Helicopters Defendants, it is
8 entirely reasonable and proper to be hailed before the District Court for Clark County, Nevada in
9 that said Defendants sought to develop an extensive helicopter market in Nevada for their
10 helicopters for many years prior to the crash of the subject helicopter and have increasingly
11 magnified their efforts at sales, marketing and support services within the State of Nevada and,
12 particularly, Clark County, in that Nevada will be the most efficient, convenient and interested
13 forum for resolution of this dispute.

14

1 purposes and Defendants, and each of them, extended great effort to develop and cultivate a Nevada
2 market for use of helicopters in that manner and, specifically, the Airbus Helicopters Defendants
3 deliberately tracked, monitored, serviced and supported these Papillon helicopters within the State of
4 Nevada, and, specifically with respect to the helicopter at issue in the months and years immediately
5 preceding the crash, and, further, Defendants and each of them could have and did reasonably expect
6 that the subject helicopter would be utilized in the manner anticipated within the State of Nevada
7 and purposefully conducted extensive business activities in support of the use of the subject
8 helicopter in a manner reasonably anticipated.

10 186. It does not offend "traditional notions of fair play and substantial justice" to require
11 these Defendants to defend themselves in this forum. The contacts, ties and relations of Defendants,
12 and each of them, are sufficient to the exercise of personal jurisdiction within the Courts of the State
13 of Nevada. Defendants Papillon Airways, Inc. d/b/a Papillon Grand Canyon Helicopters, Airbus

341. Defendant Papillon's failure to implement proper emergency readiness procedures caused the passenger and decedent herein, Jonathan Neil Udall, to be stranded at the bottom of the Grand Canyon for more than eight (8) hours before he could be transferred to the hospital.

342. Defendant Papillon's failure to implement proper emergency readiness procedures caused the passenger and decedent herein, Jonathan Neil Udall, to suffer cardiac arrest and to remain without the proper medical attention for more than eight (8) hours before he could be transferred to the hospital.

343. That as a direct and proximate result of the aforesaid negligence and carelessness on the part of Defendant Papillon, Jonathan Neil Udall died.

1 349. Defendant Papillon held itself out as an entity which could safely and competently
2 transport persons purchasing helicopter sightseeing tours.

3 350. At all times material hereto, Defendant Papillon was and is a commercial air taxi
4 service carrying passengers who have purchased helicopter sightseeing tours and doing so for hire

7 exercise the highest degree of care and diligence in the operation, management, maintenance, and
8 service of its helicopter sightseeing tours to be provided to persons within the general public, such as
9 Jonathan Neil Udall and, specifically, the highest degree of care and diligence to provide a safe and
10 airworthy aircraft.

11 352. Defendant Papillon failed to provide a reasonably safe aircraft for the use and
12 transport of Plaintiffs' deceased thereby breaching its duty to exercise the highest degree of care.
13

14 353. Plaintiffs' deceased died as a direct and proximate result of Defendant Papillon's
15 failure to exercise the highest degree of care in providing a safe helicopter for their use and

10 **(STRICT LIABILITY - - DEFECTIVE DESIGN AND**
11 **MANUFACTURE BY DEFENDANT AIRBUS HELICOPTERS,**
12 **S.A.S. – WRONGFUL DEATH OF JONATHAN NEIL UDALL)**

13 357. Plaintiffs hereby incorporate by reference, as though fully set out herein, each and
14 every allegation of the preceding paragraphs.

15 358. Defendant Airbus S.A.S. designed, manufactured, assembled, supplied, distributed
16 and/or sold the aforementioned helicopter, referred to as EC130 B4, and/or component parts thereof,
17 including the tail rotor system and fuel system, in the course of its business.

18 359. The aforesaid helicopter and/or component parts were defective and, because of the
19 defect, the helicopter was unreasonably dangerous to a person who might reasonably be expected to
20 use, consume or be affected by the helicopter, including the decedent herein Jonathan Neil Udall.

21 360. The aforesaid helicopter and/or component parts used therein relating to the tail rotor
22 system were then in a defective condition, unreasonably dangerous when put to their reasonably
23 anticipated uses into the stream of commerce.

24 361. The aforesaid helicopter and/or component parts used therein relating to the fuel
25 system configuration were then in a defective condition, unreasonably dangerous when put to their
26 reasonably anticipated uses into the stream of commerce.
27
28

1 362. The aforesaid helicopter was used in a manner reasonably anticipated by Defendant
2 Airbus, S.A.S. and others.

3 363. The helicopter and/or component parts or systems referenced herein were expected to
4 and did reach the user or consumer without substantial change in the condition in which they were
5 sold.

6 364. The defects in the helicopter caused the injuries and damages to Plaintiffs.

7 365. The helicopter was defective and dangerous for reasons including, but not limited to,
8 the following:
9

- 10 a. Defendant designed, manufactured, and supplied an unsafe and unreasonably
11 dangerous tail rotor system which is uncontrollable in the event of a failure,
12 especially at low speeds, hover and/or liftoff;
- 13 b. Defendant knew that the failure of the tail rotor system renders the helicopter
14 unsafe and uncontrollable;
- 15 c. Defendant supplied a pilot operating handbook or flight manual that did not
16 safely and properly address failure of the tail rotor system or proper and safe
17 emergency maneuvers;
- 18 d. Defendant failed to provide the pilot of the subject helicopter with proper in-
19 flight warning that the tail rotor system was inoperable or failing;
- 20 e. Defendant supplied the subject helicopter without a proper warning system to
21 advise the pilot of an in-flight tail rotor system failure;
- 22 f. Defendant selected and supplied an unsafe and unreasonably dangerous fuel
23 system configuration which caused the helicopter to explode and/or burn upon
24 impact; and
25
26
27
28

1 g. The helicopter was not crashworthy in that the fuel system as designed and
2 manufactured was incapable of withstanding impact of a minimal to moderate
3 nature.

4 366. Prior to the subject helicopter crash, Defendant Airbus, S.A.S. knew from other
5 crashes of its helicopters that if a helicopter is not equipped with a crash resistance fuel system, it is
6 not crashworthy and is incapable of withstanding impact of a minimal to moderate nature.
7

8 367. Prior to the subject helicopter crash, Defendant Airbus, S.A.S. knew from other
9 crashes of its helicopters that if the helicopter fuel system does not withstand impact of a minimal to
10 moderate nature, the fuel tank will rupture upon impact and the occupants will be horrifically and
11 catastrophically burned.

12 368. Prior to the subject helicopter crash, Defendant Airbus, S.A.S. knew that a study
13 performed by Robertson Aviation, LLC and published in 2002 found that the fatality rate increased
14 two to three times when a post-crash fire ensued versus no post-crash fire.
15

16 369. Prior to the subject helicopter crash, Defendant Airbus, S.A.S. knew that a study
17 performed by Robertson Aviation, LLC and published in 2002 found that 78.5% of post-crash fires
18 were attributable to failed fuel tanks and/or fuel lines.

19 370. Prior to the subject helicopter crash, Defendant Airbus, S.A.S. knew that a crash
20 resistant fuel system was designed and developed for the U.S. Army in the late 1960's.
21

22 371. Prior to the subject helicopter crash, Defendant Airbus, S.A.S. knew that a drop test
23 was conducted in 1968 on the crash resistant fuel system which was designed and developed for the
24 U.S. Army and the crash resistant fuel system functioned as designed and no fluids were spilled.

25 372. Prior to the subject helicopter crash, Defendant Airbus, S.A.S. knew that one of the
26 goals when designing for post-crash fire safety is to prevent spillage.

1 373. Prior to the subject helicopter crash, Defendant Airbus, S.A.S. knew that the first
2 military helicopter produced with a crash resistant fuel system came into service in April 1970.

3 374. Prior to the subject helicopter crash, Defendant Airbus, S.A.S. knew that after April
4 1970, programs to retrofit existing military helicopters with crash resistant fuel systems were
5 implemented.

6 375. Prior to the subject helicopter crash, Defendant Airbus, S.A.S. knew that a study
7 published in 1978 documented that Army helicopters equipped with a crash resistant fuel system had
8 reduced thermal injuries by 75% and that there were no thermal fatalities during the 1970-1976
9 study period.

10 376. Prior to the subject helicopter crash, Defendant Airbus, S.A.S. knew that the National
11 Transportation Safety Board published a report in 1980 that made a recommendation to the Federal
12 Aviation Administration regarding the implementation of crash resistant fuel systems in an effort to
13 reduce the incidence of post-crash fires.

14 377. Prior to the subject helicopter crash, Defendant Airbus, S.A.S. knew that it is
15 important to provide occupants of helicopters with the time to evacuate the helicopter and move
16 away from the vicinity before being consumed by smoke and fire.

17 378. Prior to the subject helicopter crash, Defendant Airbus, S.A.S. knew that improved
18 crash resistance standards incorporating fuel system design features to minimize the hazard of fuel
19 fires to occupants following an otherwise survivable impact were enacted in 1994.

20 379. Prior to the subject crash, Defendant Airbus, S.A.S. knew of the enhanced safety of
21 crashworthy fuel tanks.

22 380. The fuel system on the subject helicopter was defective in design and unreasonably
23 dangerous in design in that it catastrophically failed when subjected to known survivable crash
24 conditions resulting in a significant post-crash explosion and fuel fed fire.

5 the part of Defendant Airbus, S.A.S., Jonathan Neil Udall died.

AIRBUS HELICOPTERS, S.A.S. – WRONGFUL DEATH
OF JONATHAN NEIL UDALL)**

386. Plaintiffs hereby incorporate by reference, as though fully set out herein, each and every allegation of the preceding paragraphs.

387. The helicopter, which crashed and burned on February 10, 2018 was then unreasonably dangerous when put to a reasonably anticipated use without knowledge of its characteristics.

388. That at all times pertinent hereto, Defendant Airbus, S.A.S. failed to provide an adequate warning as to the dangers of use of said helicopter, including the tail rotor system and fuel system, which were then unreasonably dangerous.

389. Defendant Airbus, S.A.S. failed to adequately warn foreseeable users of the risk of harm from the defective design of the tail rotor system in that a failure of the system would render the helicopter uncontrollable.

390. Defendant Airbus, S.A.S. failed to adequately warn foreseeable users of the risk of harm from the defective design of the fuel system in that the fuel tank was incapable of withstanding impact of a minimal to moderate nature.

391. The helicopter was used in a manner reasonably anticipated.

392. That as a direct and proximate result of the aforesaid negligence and carelessness on the part of Defendant Airbus, S.A.S., Jonathan Neil Udall died.

393. By virtue of Jonathan Neil Udall's untimely death, Plaintiffs are lawfully entitled to such damages as are fair and just for the death and loss thus occasioned, including but not limited to the pecuniary losses suffered by reason of the death, grief, sorrow, funeral expenses, and the reasonable value of the services, consortium, companionship, comfort, society, instruction,

2 careful and prudent designer, manufacturer, importer, distributor, and seller of helicopters and
3 component parts would use under the same or similar circumstances.

4 400. Defendant Airbus, S.A.S. was negligent by failing to exercise reasonable care to
5 prevent the helicopter from creating an unreasonable risk of harm to the person or one who might
6 reasonably be expected to use or be affected by the helicopter while it was being used in the manner
7 Defendant Airbus, S.A.S. might have reasonably expected.

8

14
15 403. The aforesaid helicopter and/or component parts used therein relating to the design of
16 the tail rotor system designed, manufactured, and sold by Defendant Airbus, S.A.S. were defective

21 defective and otherwise flawed, which had the effect of allowing the fuel tank to fail thereby causing
22 the helicopter to explode and burn upon a survivable crash.

23
24 405. Defendant Airbus, S.A.S. knew or by using ordinary care should have known of the
25 foreseeable risk of harm caused by such flawed and dangerous condition as was created by its failure

1 441. The aforesaid helicopter and/or component parts used therein relating to the tail rotor
2 system were then in a defective condition, unreasonably dangerous when put to their reasonably
3 anticipated uses into the stream of commerce.

4 442. The aforesaid helicopter and/or component parts used therein relating to the fuel
5 system configuration were then in a defective condition, unreasonably dangerous when put to their
6 reasonably anticipated uses into the stream of commerce.

7
8 443. The aforesaid helicopter was used in a manner reasonably anticipated by Defendant
9 Airbus, Inc. and others.

10 444. The helicopter and/or component parts or systems referenced herein were expected to
11 and did reach the user or consumer without substantial change in the condition in which they were
12 sold.

13 445. The defects in the helicopter caused the injuries and damages to Plaintiffs.

14 446. The helicopter was defective and dangerous for reasons including, but not limited to,
15 the following:
16

- 17 a. Defendant designed, manufactured, and supplied an unsafe and unreasonably
18 dangerous tail rotor system which is uncontrollable in the event of a failure,
19 especially at low speeds, hover and/or liftoff;
- 20 b. Defendant knew that the failure of the tail rotor system renders the helicopter
21 unsafe and uncontrollable;
- 22 c. Defendant supplied a pilot operating handbook or flight manual that did not
23 safely and properly address failure of the tail rotor system or proper and safe
24 emergency maneuvers;
- 25 d. Defendant failed to provide the pilot of the subject helicopter with proper in-
26 flight warning that the tail rotor system was inoperable or failing;

- e. Defendant supplied the subject helicopter without a proper warning system to advise the pilot of an in-flight tail rotor system failure;
- f. Defendant selected and supplied an unsafe and unreasonably dangerous fuel system configuration which caused the helicopter to explode and/or burn upon impact; and
- g. The helicopter was not crashworthy in that the fuel system as designed and manufactured was incapable of withstanding impact of a minimal to moderate nature.

447. Prior to the subject helicopter crash, Defendant Airbus, Inc. knew from other crashes of its helicopters that if a helicopter is not equipped with a crash resistance fuel system, it is not crashworthy and is incapable of withstanding impact of a minimal to moderate nature.

448. Prior to the subject helicopter crash, Defendant Airbus, Inc. knew from other crashes of its helicopters that if the helicopter fuel system does not withstand impact of a minimal to moderate nature, the fuel tank will rupture upon impact and the occupants will be horrifically and catastrophically burned.

449. Prior to the subject helicopter crash, Defendant Airbus, Inc. knew that a study performed by Robertson Aviation, LLC and published in 2002 found that the fatality rate increased two to three times when a post-crash fire ensued versus no post-crash fire.

450. Prior to the subject helicopter crash, Defendant Airbus, Inc. knew that a study performed by Robertson Aviation, LLC and published in 2002 found that 78.5% of post-crash fires were attributable to failed fuel tanks and/or fuel lines.

451. Prior to the subject helicopter crash, Defendant Airbus, Inc. knew that a crash resistant fuel system was designed and developed for the U.S. Army in the late 1960's.

1 452. Prior to the subject helicopter crash, Defendant Airbus, Inc. knew that a drop test was
2 conducted in 1968 on the crash resistant fuel system which was designed and developed for the U.S.
3 Army and the crash resistant fuel system functioned as designed and no fluids were spilled.

4 453. Prior to the subject helicopter crash, Defendant Airbus, Inc. knew that one of the
5 goals when designing for post-crash fire safety is to prevent spillage.

6 454. Prior to the subject helicopter crash, Defendant Airbus, Inc. knew that the first
7 military helicopter produced with a crash resistant fuel system came into service in April 1970.

8 455. Prior to the subject helicopter crash, Defendant Airbus, Inc. knew that after April
9 1970, programs to retrofit existing military helicopters with crash resistant fuel systems were
10 implemented.

11 456. Prior to the subject helicopter crash, Defendant Airbus, Inc. knew that a study
12 published in 1978 documented that Army helicopters equipped with a crash resistant fuel system had
13 reduced thermal injuries by 75% and that there were no thermal fatalities during the 1970-1976
14 study period.

15 457. Prior to the subject helicopter crash, Defendant Airbus, Inc. knew that the National
16 Transportation Safety Board published a report in 1980 that made a recommendation to the Federal
17 Aviation Administration regarding the implementation of crash resistant fuel systems in an effort to
18 reduce the incidence of post-crash fires.

19 458. Prior to the subject helicopter crash, Defendant Airbus, Inc. knew that it is important
20 to provide occupants of helicopters with the time to evacuate the helicopter and move away from the
21 vicinity before being consumed by smoke and fire.

22 459. Prior to the subject helicopter crash, Defendant Airbus, Inc. knew that improved
23 crash resistance standards incorporating fuel system design features to minimize the hazard of fuel
24 fires to occupants following an otherwise survivable impact were enacted in 1994.

1 460. Prior to the subject crash, Defendant Airbus, Inc. knew of the enhanced safety of
2 crashworthy fuel tanks.

3 461. The fuel system on the subject helicopter was defective in design and unreasonably
4 dangerous in design in that it catastrophically failed when subjected to known survivable crash
5 conditions resulting in a significant post-crash explosion and fuel fed fire.

6 462. The conduct of Defendant Airbus, Inc. was willful and wanton given their conscious
7 decision to manufacture and market the subject helicopter without a crash resistant fuel system.

8 463. That as a direct and proximate result of the aforesaid negligence and carelessness on
9 the part of Defendant Airbus, Inc., Jonathan Neil Udall died.

10 464. By virtue of Jonathan Neil Udall's untimely death, Plaintiffs are lawfully entitled to
11 such damages as are fair and just for the death and loss thus occasioned, including but not limited to
12 the pecuniary losses suffered by reason of the death, grief, sorrow, funeral expenses, and the
13 reasonable value of the services, consortium, companionship, comfort, society, instruction,

15 death, further including, loss of probable support, past and future lost income, household services,
16 and other value of benefits which would have been provided by the deceased.

17 465. Plaintiffs further claim such damages as the decedent suffered between the time of
18 injury and the time of death and for the recovery of which the decedent might have maintained an
19 action had death not ensued including, but not limited to, mental anguish, physical disability,
20 conscious pain and suffering, pre-impact terror, disfigurement, and further considering the
21 aggravating circumstances attendant upon the fatal injury.

22 466. Plaintiffs further claim punitive damages in that the actions and conduct heretofore
23 set out demonstrated a reckless disregard for safety and complete indifference to the safety and
24 rights of others, including Plaintiffs' deceased.

467. Plaintiffs hereby incorporate by reference, as though fully set out herein, each and every allegation of the preceding paragraphs.

468. The helicopter, which crashed and burned on February 10, 2018 was then unreasonably dangerous when put to a reasonably anticipated use without knowledge of its characteristics.

469. That at all times pertinent hereto, Defendant Airbus, Inc. failed to provide an adequate warning as to the dangers of use of said helicopter, including the tail rotor system and fuel system, which were then unreasonably dangerous.

470. Defendant Airbus, Inc. failed to adequately warn foreseeable users of the risk of harm from the defective design of the tail rotor system in that a failure of the system would render the helicopter uncontrollable.

471. Defendant Airbus, Inc. failed to adequately warn foreseeable users of the risk of harm from the defective design of the fuel system in that the fuel tank was incapable of withstanding impact of a minimal to moderate nature.

472. The helicopter was used in a manner reasonably anticipated.

473. That as a direct and proximate result of the aforesaid negligence and carelessness on the part of Defendant Airbus, Inc., Jonathan Neil Udall died.

474. By virtue of Jonathan Neil Udall's untimely death, Plaintiffs are lawfully entitled to such damages as are fair and just for the death and loss thus occasioned, including but not limited to the pecuniary losses suffered by reason of the death, grief, sorrow, funeral expenses, and the reasonable value of the services, consortium, companionship, comfort, society, instruction,

1 guidance, counsel, training, and support of which Plaintiffs have been deprived by reason of such
2 death, further including, loss of probable support, past and future lost income, household services,

1 480. Defendant Airbus, Inc. had a duty to use that degree of care that an ordinarily careful
2 and prudent designer, manufacturer, importer, distributor, and seller of helicopters and component
3 parts would use under the same or similar circumstances.

4 481. Defendant Airbus, Inc. was negligent by failing to exercise reasonable care to prevent
5 the helicopter from creating an unreasonable risk of harm to the person or one who might reasonably
6 be expected to use or be affected by the helicopter while it was being used in the manner Defendant
7 Airbus, Inc. might have reasonably expected.

8 482. Jonathan Neil Udall was one of those persons the Defendant Airbus, Inc. should
9 reasonably have expected to use or be affected by this helicopter.

10 483. The helicopter and related component parts designed, manufactured, and sold by
11 Defendant Airbus, Inc. were defective and otherwise flawed, which had the effect of creating a
12 catastrophic failure during flight.

13 484. The aforesaid helicopter and/or component parts used therein relating to the design of
14 the tail rotor system designed, manufactured, and sold by Defendant Airbus, Inc., were defective and
15 otherwise flawed, which had the effect of allowing the helicopter to crash after a loss of tail rotor
16 effectiveness.

17 485. The aforesaid helicopter and/or component parts used therein relating to the design of
18 the fuel system configuration designed, manufactured, and sold by Defendant Airbus, Inc., were
19 defective and otherwise flawed, which had the effect of allowing the fuel tank to fail thereby causing
20 the helicopter to explode and burn upon a survivable crash.

21 486. Defendant Airbus, Inc. knew or by using ordinary care should have known of the
22 foreseeable risk of harm caused by such flawed and dangerous condition as was created by its failure
23 to properly design, test, manufacture, sell, monitor, field performance, accumulate field data, recall
24 and distribute safe helicopters and component parts.

19
20 f. Defendant selected and supplied an unsafe and unreasonably dangerous fuel
21 tank configuration which caused the helicopter to explode and/or burn upon
22 impact; and
